GUARANTEE:

We guarantee all stock to be well rooted, properly packed and shipped according to directions. Since we have no control over growing conditions after the plants leave the nursery, we cannot guarantee them to live. This depends on the knowledge and skill of the purchaser.

HORTICULTURAL INFORMATION:

We want our customers to feel at liberty to write us for any information needed on care, etc. of their trees.

MEANING OF ABBREVIATIONS:

B & B means Balled & Burlaped; that is, plants are dug with dirt in which they grew, without disturbing their roots. This "Ball" of dirt is then securely wrapped with burlap to prevent crumbling.

N. B. Means Not Balled. However all roots are carefully packed in damp packing material to prevent drying.
